**SAFER,
SMARTER
KIDS!**

"I have used the *Safer, Smarter Kids* program for two years now with wonderful results. The kids love it! They are excited and engaged throughout the program."

- Florida Elementary School Teacher

PRE-KINDERGARTEN THROUGH GRADE 5

Safer, Smarter Kids is a child abuse prevention education curriculum designed to empower elementary school-aged children to protect themselves in situations where someone could abuse them. Children are armed with protective principles and vocabulary to express their feelings and talk to a trusted adult.

Safety Topics Covered: Safety awareness | Respecting yourself and others | Developing self-esteem | Assessing safe vs. unsafe situations | Understanding rules and responsibilities | Identifying and protecting body boundaries | Listening to a guiding voice | Accessing help and trusted adults | Determining safe vs. unsafe secrets | Determining safe vs. unsafe touches | Practicing cyber safety and digital citizenship | Establishing personal power and influence

The curriculum was developed by Lauren Book, M.S.Ed. – child abuse survivor, child advocate and educator and founder and CEO of the Lauren's Kids foundation – along with career educators and guidance counselors to provide critical safety information to children, parents and teachers.

Safer, Smarter Kids follows a developmentally appropriate sequence of instruction for elementary school students, helping children develop skills to stay safe as their world expands. Each grade level program in the curriculum includes five to eight lessons that are aligned to the Florida Standards and Next Generation Sunshine State Standards for easy integration into the classroom. The curriculum allows for all children to effectively learn these critical strategies, no matter their learning style, and contains adaptations for children with special needs.

Effectiveness testing of the early childhood components of the curriculum showed children had a 77% learning gain in their knowledge of critical personal safety information. Personal safety learning continues for middle and high school students through the *Safer, Smarter Teens* program.

PRE-K & KINDERGARTEN

Children learn strategies and vocabulary to stay safe in the context of their growing world. The main tenets of this curriculum teach children that their bodies are their own, they always have the right to say no when they feel uncomfortable and should tell their trusted adult about the situation, and no one should ever ask a child to keep an unsafe secret. SAFER, SMARTER KIDS! SPECIAL NEEDS

SPECIAL NEEDS

Unfortunately, more than 90% of people, both male and female, with special needs will be sexually abused at some point in their lives, and 49% will experience 10 or more abuse incidents in their lives.¹ Only 3% of sexual abuse cases involving people with disabilities are ever reported, which is why the lessons taught in this specialized curriculum are so critical.¹

Lauren's Kids offers several resources to ensure the *Safer, Smarter Kids* curriculum is able to reach all kinds of learners. Offerings include a stand alone resource with engaging lesson plans that incorporate visual aids to educate children about the importance of body boundaries and personal safety, and encourages children to develop a group of trusted adults with whom they can share things that make them uncomfortable. The framework is designed to create a cooperative environment for parents and teachers to create a learning plan so that each child, no matter their need, can receive a developmentally appropriate abuse prevention education.

The framework integrates with current autism models and focuses on the children recognizing facial cues and situational circumstances to determine what action should be taken to protect themselves.

Lauren's Kids has also developed pacing guides to help accommodate students with developmental, emotional and behavioral disabilities who are being taught lessons from the traditional grade level curriculum programs.

LAUREN'S KIDS

Lauren Book, Lauren's Kids' founder and CEO, was a victim of childhood sexual abuse for six years at the hands of her trusted caretaker. Armed with the knowledge that 95% of sexual abuse is preventable through education and awareness, Lauren has worked to turn her horrific personal experience into a vehicle to prevent childhood sexual abuse and help other survivors heal.

An official 501(c)3 since 2007, Lauren's Kids is based in South Florida and educates adults and children about sexual abuse prevention through in-school curriculum, awareness campaigns and speaking engagements around the country and the world. The organization also leads an annual, statewide "Walk in My Shoes" awareness walk across the state of Florida – 1,500 miles from Key West to Tallahassee – and provides more than 9 million education and awareness materials statewide through direct mail every year. The foundation has helped advocate for the passage of nearly two dozen laws to support survivors and protect children from predators. The ultimate goal is to prevent sexual abuse through education and awareness, and to help survivors heal with guidance and support.
